\$5, \$6, \$7.50 to \$15

—if you wish to give a man a christmas gift that will go straight to his heart, try him with one of our new smoking jackets.

BURGLARS ENTER THE RESIDENCE OF DR. PAINE

The home of Dr. W. S. Paine, 2635 Jackson avenue, was burglarized last night. The burglars securing a quantity of jewelry, including a gold bracelet, moonstone and agate stick pins, a pin set with an emerald and five diamonds and a .35 calibre Smith & Wesson revolver.

Entrance to the home was obtained by "jumping" a rear window and, when the members of the family returned home from town, they found that the residence had been ransacked from cellar to garret, with the contents of bureau drawers, work bags and other receptacles scattered about the floors.

It is also thought that the robbers entered a neighboring house, after taking all the valuables they could

OWEN BENNETT, Mgr.

PSYCHIC PHENOMENA AS UNDERSTOOD BY DR. HOUSE

Last night in the First Methodist Episcopal church, a large audience listened with great interest to Dr. House's lecture on "Psychic Phenomena." It was a clear and illuminative presentation of these interesting and puzzling subjects. He warned people against being hypnotized merely for show, but recognized that it has a place in the hands of scientists in the cure of bad habits and as a substitute for anesthetics in minor operations, but claimed that it was not the best method of curing bad habits. As to spiritualism, he claimed that careful scientific investigation had so far found no ground for believing in the materialization of spirits, but that it might be that spirits could communicate messages to the sub-conscious intellect, though this was still a question and the usual demonstrations were either frauds or the operation of a sort of auto-hypnotism. A number of striking incidents were given along this line that will not soon be forgotten.

In the afternoon class, Dr. House showed that man was made of three tiers, the material, the psychic or mental, and the spiritual. He showed that while matter was not the final reality, still it was a fact to be reckoned with; that it was the organ of expression for the mental and spiritual man; that man should not allow his life to be lived merely in the material realm, but that the material things be shot through with the glory of God; that the spiritual things were the eternal realities of supreme worth; that love, hope, etc., would outlast earthly things, and therefore, he said, we should so adjust ourselves to material and spiritual things as to give the spiritual the supreme emphasis. To this end not only the activity of our own spiritual life is necessary, but the quickening in working of the Holy Spirit of God, the super-sensuous mind of God. In a proper relation to the world, man will not neglect his physical self in the cultivation of his spiritual self but will use proper means for supplying food, clothing, protection, hygiene, etc.

Tonight the subject will be, "The Psychology of Dress."

WILLARD MAN IS STRICKEN DOWN

A. Taylor, while lifting a harrow out of a wagon at Willard, yesterday morning, fell unconscious. He was picked up and carried home where a doctor examined him and found he is suffering of hemorrhage of the brain. There is but small hope for his recovery. He is about 33 years of age and has a wife and two children.

WORLD'S MARKETS

New York, Nov. 30.—The irregular trend which marked yesterday's dealings was again observed at the opening of today's market, leading issues showing no material changes. Exceptions to this rule were furnished by Cuban-American sugar, which made the new record of 174 7/8 on its six points advance, National Biscuit preferred up 6 to 125, and Associated Oil 2 to 58. Diamond Match, one of the very inactive specialties sold ex-dividend at 1 1/2 at an equivalent of 188 1/2 against its previous quotation of 100. American Tobacco fell 3 to 216. Rails were variable within narrow limits and the entire list soon reacted on moderate pressure.

Chicago Hog Market. Chicago, Nov. 30.—Receipts today and a left-over supply had a depressing effect on the hog market. Too many of the cattle offered were of unattractive kind. Arrivals of sheep and lambs seemed inadequate to meet the demand.

Chicago Livestock. Chicago, Nov. 30.—Receipts, 48,000; market, slow, unchanged to 5c under yesterday's average. Bulk of sales, \$6.25 to \$6.80; light, \$5.80 to \$6.75; mixed, \$6.15 to \$7.00; heavy, \$6.35 to \$7.00; rough, \$6.35 to \$6.50; pigs, \$4.00 to \$5.75. Cattle—Receipts, 4,000; market, weak. Native beef steers, \$5.65 to \$6.35; western steers, \$6.20 to \$6.30; cows and heifers, \$2.70 to \$8.00; calves, \$6.25 to \$10.25. Sheep—Receipts, 12,000; market, strong. Wethers, \$6.00 to \$6.50; lambs, \$7.00 to \$9.50.

Chicago Grain

Chicago, Nov. 30.—Uncertainty and nervousness were manifest in the wheat market here today. Widely varying opinions of the effect of commanding in Canada remained the chief disturbing elements, swinging prices alternately upward and downward without causing any permanent well defined changes. The opening, which ranged from 1-4c off to 3-4c up, was followed by a reaction all around to well below yesterday's finish, and then a moderate rally.

Fine weather made the corn market easier. The December option especially was a discount. After opening at 1-4c decline to 1-8c advance, the market underwent a general sag. Oats went down grade with corn. Lower prices on hogs weakened provisions.

The wheat close was unsettled at 3-4c net decline with December at \$1.05 and May at \$1.07 3/4. The corn close was weak at a loss of 5-8 to 3-4 to 3-4c net. Chicago, Nov. 30.—Wheat—No. 2 red, \$1.10 3/4; No. 3 red, \$1.05 to \$1.08; No. 2 hard, nominal; No. 3 hard, \$1 3/4 to \$1.03 7/8. Corn—No. 2 yellow, old, 68c; No. 4 yellow, new, 62 to 64c; No. 4 white, new, 61 to 63 1/4c. Oats—No. 3 white, 38 1/2 to 41c; standard, 42 to 44c. Rye—No. 2, 95 to 95 1-2c. Barley—\$8 to 70c.

Nov. 29th to Dec. 4th Electrical Prosperity Week

Electricity has always rightly been regarded as a business stimulator—a speeder-up and a money-maker.

In any section of the country where electricity is well known and widely utilized, you will find modern-thinking, modern-acting, prosperous communities.

Electrical Prosperity Week, November 29 to December 4, is an event dedicated entirely to boosting, extending the use and knowledge of electricity in the home, the office and factory.

If you now share in the benefits which electricity has bestowed on the world, show your approval of it by resolving to do more things in the electrical way—by passing the good word along to your unelectrified neighbor.

"EFFICIENT PUBLIC SERVICE."

Timothy—\$5@7.75. Clover—\$10@19; mostly \$16.50@17.50. Pork—\$15.75. Lard—\$9.12.

New York Money. New York, Nov. 30.—Mercantile paper, 2 1/4@3. Sterling, 60 day bills, \$4.67; demand, \$4.70 1/2; cables, \$4.71 1/2.

Mexican dollars, 43 1-4c. Government bonds, easy. Railroad bonds, heavy. Time loans, weaker; 60 and 90 days, 2 1/4@2 1/2 per cent; 6 months, 2 1/2 @2 3/4 per cent. Call money, firm; high, 2 per cent; low, 1 3/4 per cent; ruling rate, 2 per cent; last loan, 2 per cent; closing bid, 1 3/4 per cent; offered at 2 per cent.

Sugar Prices. New York, Nov. 30.—Raw sugar—Strong. Centrifugal, 5-14c; molasses, 43c; refined, firm. Sugar futures opened firm on covering and renewed demand by trade interests. At noon prices were 3 to 7 points higher.

WILL ATTEMPT TO STOP TROOPS

Necessity of Maintaining Garrison in Yaquis Valley Presented to Carranza General by U. S. Admiral Winslow.

Topolobampo, Mexico, Nov. 30, by Radio to San Diego, Cal.—Carranza forces again have opened communications between Guaymas and Hermosillo, the capital of Sonora state, and General Diezuez is endeavoring to intercept, 2500 Villa troops, supposed to be heading through southern Sonora in an attempt to join General Banderas, the Villa commander in northern Sinaloa, according to advices here today.

Fear of an attack by Indians upon the American settlers in the Yaqui valley has increased as all but 30 troops have been withdrawn from that vicinity to participate in the Carranza campaign to the north.

The necessity for maintaining an adequate garrison in the Yaqui valley for the protection of Americans and other foreigners and thus possibly averting a massacre, is now being strongly presented to General Diezuez in messages by Admiral Winslow, who is proceeding with his flagship, the cruiser San Diego, and an expeditionary force for Topolobampo. The position of the San Diego was reported last night as off Cape San Lucas, the extreme southern extremity of Lower California.

Naval officers are reported to have significant little village, with a popu-

lating yesterday Los Mochis and the scene of the recent raids. Foreign property in the outlying districts still is held by the Indians, but Carranza officials stated that these lands would be returned to their rightful owners as soon as they had been recovered.

According to today's dispatches, the naval officers saw evidence of looting at Los Mochis, and actually saw Carranza soldiers ransacking houses of Americans. This was immediately brought to the attention of Colonel Escobar, commanding the Carranza troops, who promised that the looting would be stopped and the appropriated property returned.

Owing to the presence of Carranza troops in large numbers at Los Mochis, Americans who had taken refuge upon the United States gunboat Annapolis, and those who had come for safety to Topolobampo, have decided to return to their homes at once.

KAVALA WHERE THE ALLIES ARE

Rugged Country Near the Bulgarian Southern Boundary.

Washington, D. C., Nov. 30.—"Pack of Kavalas, where the allies are reported to be landing troops for their operations in the Balkans, lies the historic battlefields, Philipp, upon which Brutus and Cassius lost all hope of inheriting the power of the great dictator whom they had slain," begins a statement given out today by the National Geographic society, which describes the point of most recent strategic interest in the near East.

"Situated on the Bay of Kavalas, 22 miles from the Bulgarian boundary to the east an allied garrison at this port would be within easy striking distance of the enemy country, with mountains guarding the town all around and down almost to the water's edge, it could be turned into an almost impregnable depot for munitions and supplies. The Bulgarian border 40 miles to the north is protected by the wild Rhodope mountains, from which outrunning ranges and hills guard the eastern marches. The railway between Saloniki and the Bulgarian port, Dedegatch, passes 16 miles to the north of Kavalas, and only miserable ways lie in between. The whole borderland territory is lean, savage and rugged.

"Kavalas port crowns a promontory, reaching into the bay. It is an in-

lation of scarcely more than 5000. The island of Thasos lies before its bay to the south and east. This island, also, is a hilly vantage point for the guarding of the entrance of the harbor against attack by hostile ships. Altogether, the present favorable wartime geographical advantages of this obscure little town may conspire to give it back a greater fame than it possessed in Greek and Roman times. Mehmet Ali was born here in 1769, which event is the greatest in the village's history of 1000 years until the present coming of the French and English. In the country surrounding Kavalas is grown some of the finest Turkish tobacco that finds its way in fancy cigarettes into the markets of England and America."

EGYPT WORRIES GEN. KITCHENER

Berlin Says British Officer Was in Conflict With French Minister.

Berlin, Nov. 30, by wireless to Sayville.—Differences of opinion arose between Field Marshal Earl Kitchener, British secretary for war, and Denys Cochin, French minister without portfolio, when they met in Athens recently, the Overseas News Agency says. A press dispatch from Athens by way of Budapest given out by the News Agency, asserts Earl Kitchener desired Greece to enter the war with the allies, whereas M. Cochin merely asked safe passage for French and British troops which might retreat from Macedonia to Greek territory.

"This explains why Premier Skoufoulis has dwelt upon the sympathy which Greece feels for France," the News Agency continues. "Earl Kitchener, considering that the game was lost, went to Italy to request assistance for the British in Egypt, which now seems to be the only country which interests England, after the Balkan failures."

INDIANAPOLIS, IND., ELECTION FRAUDS

Indianapolis, Ind., Nov. 30.—Four persons indicted with Mayor Don M. Roberts in the Terre Haute election conspiracy case, were given sentences by Judge Anderson in the United States district court here today.

John F. Nugent, assistant chief of police under Roberts, was sentenced to serve a year and a day in the federal penitentiary while the other three were given jail sentences as follows: Frank Hess, five months; Jack Hines, four months, and John Bruns,

thirty days. All of the men had pleaded guilty. The four men for months were permitted to go without being sentenced, at the request of United States District Attorney Frank C. Daley. It was understood that they were to be used as government witnesses against Roy Shattuck, Republican candidate for congress, charged with election fraud. Shattuck since has died. The four men testified for the government in the Roberts' trial.

JAPAN ALSO HAS BIG WAR BOOM

Fluctuations in Stocks So Great That Exchange Suspends Operations.

Tokio, Japan, Nov. 30.—Trustees of the stock exchange took unprecedented action today when they suspended operations and cancelled transactions owing to an exceedingly strong but fictitious upward movement on wide fluctuations. Tempestuous scenes greeted announcement of the trustees' decision.

War purchases by the allies have caused a wave of prosperity all over the country which has been reflected in the market and standard stocks have leaped upward. At today's opening there was a historical advance over yesterday's place.
